**ORGANIZED
BY:**

MESSAGE FROM CHAIRMAN & PRESIDENT

Dear Colleagues and Friends,

It is my great honor and privilege to welcome you to the 2025 ISAAH Conference, held under the theme “Beauty Beyond Boundaries: Current Perspectives on Aesthetics and Anti-Aging Medicine.”

This year’s gathering is designed not only to share the latest scientific advancements and practical approaches in our field, but also to create a vibrant space for learning, exchanging ideas, and building meaningful connections. Our aim is to go beyond the traditional conference experience by fostering collaboration across specialties, disciplines, and borders—reflecting the truly global nature of aesthetic and anti-aging medicine.

Through the insights of distinguished speakers, interactive sessions, and the participation of professionals from many countries, we believe this conference will provide fresh perspectives, valuable skills, and new inspirations for your clinical practice and academic journey.

On behalf of the organizing committee, I warmly welcome you to this exciting event. Let us explore new horizons together and continue shaping the future of beauty and longevity—without boundaries.

With warm regards,

ATINUCH DOUNGKAEW, MD, MSc.
Chairman, 2025 ISAAH Conference

Dear Colleagues and Participants,

It is with great pride and heartfelt joy that I welcome you to the 2025 ISAAH Conference, convened under the inspiring theme: “Beauty Beyond Boundaries: Current Perspectives on Aesthetics and Anti-Aging Medicine.”

This conference represents more than just a scientific gathering—it is a platform where innovation meets collaboration, and where expertise from across the globe comes together to advance the future of our field. By bridging knowledge, cultures, and experiences, we hope to transcend traditional limits and foster a true spirit of global unity in aesthetic and anti-aging medicine.

With the contributions of our esteemed speakers, interactive discussions, and the participation of leading professionals from around the world, we are confident this year’s program will provide not only the latest scientific insights but also inspiration for growth in both clinical practice and academic exploration.

On behalf of ISAAH and T5A, I extend my warmest welcome to each of you. May this conference be a meaningful journey of learning, connection, and shared vision—one that propels us forward in shaping the future of beauty and longevity beyond boundaries.

With warm regards,

Thamthiwat Nararatwanchai, MD, PhD.
President, ISAAH & T5A

**Room B: Anti Aging and Regenerative Medicine
(Afternoon Session)**
Asst. Prof. Dr. Sumate Kunchingm, Ph.D., CSCS.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

SIRINTIP CHAICHALOTORNKUL MD., PH.D.

Dr. Sirintip Chaichalotornkul has over 15 years of experience teaching medical students and doctors at Mahidol University and Mae Fah Luang University. She graduated with a Doctor of Medicine degree from Chulalongkorn University and a Doctoral degree in Dermatology from Mae Fah Luang University. Dr. Sirintip is deeply interested in conducting research on botulinum toxin, including developing new research for skin diseases and cosmetic applications. This passion has led her to supervise research for master's and doctoral degree students in the fields of dermatology, aesthetic dermatology, anti-aging, and regenerative medicine.

TANONNATT KANNOPPHARITH, MD.

Dr. Tanonnatt Kannoppharith graduated with an M.D. from Chiang Mai University and earned an M.Sc. in Anti-Aging and Regenerative Medicine from Mae Fah Luang University, Bangkok, Thailand. He lectures and conducts many workshops on the topic of filler treatments. Dr. Tanonnatt is a keynote speaker on filler injections for Galderma Thailand and serves as a key injector at MEKO Clinic, P. Paula International Aesthetics, Anti-Aging, and Hair Transplantation Academy.

SETTHAWUT NGAMMATHICHAIAWONG, MD.

Dr. Setthawut Ngammathichaiyawong received his M.D. with first-class honors from Prince of Songkla University, Thailand. He also holds a Board Certification in Preventive Medicine (Public Health) from the Thai Medical Council and a Master of Science in Anti-Aging and Regenerative Medicine from Mae Fah Luang University, Thailand. He is currently the owner of Doctor Wellness Clinic. He is board-certified by the American Board of Anti-Aging and Regenerative Medicine (ABAARM) and holds a Certificate in Weight Management from the Metabolic Medical Institute (MMI), under the American Academy of Anti-Aging Medicine (A4M). Dr. Setthawut is an international lecturer and speaker in the field of health, wellness, and weight management. He is also a healthcare influencer on social media, known as “Morlorkorlao (มอหละก้อเล้า),” with over 140,000 followers of Facebook fanpage and also youtube channel “มอหละก้อเล้า Doctor Tumm”.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

PAISAL RUMMANEETHORN, MD

Dr. Paisal Rummaneethorn graduated with a Bachelor's Degree in Medicine in 1984 from Chulalongkorn University Hospital in Bangkok, Thailand. He obtained a Certificate in Laser Medicine from Tokyo Women's Medical University in 1992. He also earned a Bachelor's Degree in Law from Sukhothai Thammathirat University. Currently, Dr. Paisal Rummaneethorn is working as the Director of Mae Fah Luang University Hospital in Bangkok, Thailand. He is a committee member of several societies, such as the Thai Society of Cosmetic Dermatology and the Association of Thai Aesthetic Physicians. He has been invited as a faculty member and guest speaker at many international congresses.

EKASIT LALITSURADEJ, PHD.

Ekasit Lalitsuradej is a professional known for his contributions in the field of health and wellness, particularly focusing on the use of paraprobiotics. He has presented on topics related to health, such as the trends in paraprobiotics for improving overall wellness. His work is recognized in conferences and seminars related to anti-aging and regenerative medicine.

CONTESSA SALVADOR ALAPAG, MD

Dr. Contessa Salvador is a certified aesthetic physician who has pioneered advanced techniques in non-surgical facial rejuvenation as the founder and Clinical Director of CSA Medical Aesthetics. Dr. Contessa Salvador is an international speaker and key opinion leader for prominent cosmeceutical brands like Restylane Galderma Philippines, Merz Philippines, and Menarini Philippines. In addition to her clinical work, she lectures in Biochemistry, Dermatologic Pharmacology, and Pediatric Dermatology at the Angeles University Foundation School of Medicine. Her extensive experience in aesthetic medicine has made her a sought-after speaker and key opinion leader at various international conferences. Her YouTube channel is a valuable educational platform, where she shares her expertise on nonsurgical aesthetic procedures, combination treatments for facial rejuvenation, and natural, instant enhancements.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

CHUNCHUREE KONGMEESUK KANEKO, MD.

Dr. Chunchuree Kongmeesuk Kaneko, earned her M.D. from Chulalongkorn University in 1993, followed by a Diploma from the Thai Board of Family Medicine in 2002 and multiple advanced certifications in occupational and anti-aging medicine, including a Master's degree in Anti-aging and Regenerative Medicine from Mae Fah Luang University in 2023. Dr. Kaneko has served in various leadership roles, including Director of Ko Sichang Hospital, and is currently a Family Medicine Physician at Laem Chabang Hospital, Chonburi, at the expert level (K4). Her research contributions include studies on inflammatory markers and eye health in hypertensive patients (2023).

KAMON CHAIYASIT PHD, CNW, CDT, FACN

Dr. Kamon Chaiyasit, Ph.D., CNW, CDT, FACN, is an expert in nutrition and wellness, holding advanced degrees and certifications in these fields. He is a Certified Nutrition Wellness professional (CNW) and Certified Dietary Technician (CDT), and a Fellow of the American College of Nutrition (FACN). Dr. Chaiyasit is known for his work in integrative lifestyle nutrition, emphasizing the role of diet in health and aging. He frequently speaks at international conferences, sharing his knowledge on how nutrition impacts overall health and longevity.

ARIYA SARIKAPHUTI, PHD.

Dr. Araya Sarikaphuti is the CEO and founder of Thailand Allianze and serves as the Chief of the Scientific Program in Anti-Aging and Regenerative Medicine at Mae Fah Luang University. She is also the President of the Thai Yuwa Kasetkorn Promotion Foundation under the Royal Patronage of HRH Princess Maha Chakri Sirindhorn and a member of the committee board of the Horticultural Science Society of Thailand. Dr. Araya has received several prestigious awards, including the Innovation Award from Belgium in 2016, the Legion of Honor from France in 2017, and the Legion of Honor from England in 2018.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

ATINUCH DOUNGKAEW, MD, MSC, AAAM, ABAARM

Dr. Atinuch Doungkaew, M.D., MSc., is a renowned aesthetic and anti-aging specialist with over 17 years of experience. As the Medical Director of REVIZE Clinic, she specializes in treatments using toxins, fillers, threads, biostimulants, and energy devices. Dr. Doungkaew is an international speaker and trainer for top brands like Medytox, Neauvia, Profhilo, and Endymed. Her approach combines scientific expertise with artistry to deliver natural, transformative results for her patients. Committed to innovation and education, she continues to shape the future of aesthetic medicine.

OKKAR KYAW KHANT, MD, MSC, MBA

Known as Dr. Noah, is an accomplished aesthetic physician, dermatologist, and hair transplant surgeon. He holds a M.B.,B.S, and a Master of Science in Dermatology and doctoral scholar from Mae Fah Luang University, Thailand. He also earned an MBA from the University of Thai Chamber of Commerce. He is an active guest lecturer at several institutions, including MFU, F.A.R.M, and P.Paula International Academy. He is a co-founder of the International Society of Aesthetics, Aging Control Medicine & Hair Transplantation (ISAAH). Dr. Noah is a trainer in Hair Transplantation. He also participated in a live surgery workshop on hair transplantation, conducted by S.I.TRI, AAHRS, TSHRS, and the International Society of Hair Restoration Surgery (ISHRS) at San Raffaele Hospital in Milan, Italy.

MAY LAM MEI, MD, MSC

Dr. Lam Mei, May is a general practitioner in Hong Kong with a specialization in Aesthetic Medicine, holding over 13 years of experience. She trained in Family Medicine in Hong Kong and earned a Master's in Clinical Dermatology in the UK. Her expertise includes injectables, thread-lifting, energy-based devices, laser treatments, and body contouring. Dr. Lam is passionate about educating both medical professionals and the public, having co-founded the Hong Kong Medical Aesthetic Association, where she also served as president for over five years. She has authored a book on aesthetic medicine and is a certified trainer for various products, including Restylane, Sculptra, Dysport, and Juvéderm.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

MUHAMMAD SALMAN, MD

Highly skilled and dedicated Plastic Surgeon with over 13 Years experience in Surgery , 9 years in Plastic Surgery and 5 Years in Hair Transplant . Specialized in both cosmetic and reconstructive procedures, with a focus on personalized patient care and achieving exceptional outcomes. Particular interest in Aesthetics , Body contouring and Hair Transplant . Proficient in a wide range of surgical techniques, continually staying updated with the latest advancements in the field. Proven record of success in performing complex surgeries and delivering highly satisfactory results. Passionate about improving patients' confidence and well-being through plastic surgery.

VACHRINTR SIRISAPSOMBAT MD., PH.D.

Dr. Vachrintr Sirisapsombat holds a Doctor of Philosophy in Anti-Aging and Regenerative Medicine from Mae Fah Luang University. He has earned diplomas from the Thai Board of Preventive Medicine in both Lifestyle Medicine and Public Health. Dr. Vachrintr also graduated with a Doctor of Medicine (M.D.) degree from Chulalongkorn University, where he received first-class honors and a gold medal. Additionally, he holds a Bachelor's degree in Allied Health Sciences (Medical Technology) from Chulalongkorn University, also with first-class honors and a gold medal. He has further certifications, including a Certificate in Acupuncture from the Division of Complementary and Alternative Medicine, Ministry of Public Health, and a Diploma in Homeopathic Medicine from the Faculty of Homeopathy in Belgium, where he achieved a Grade AA.

THADA PIAMPHONGSANT, M.D

Dr. Thada Piamphongsant, M.D., is a distinguished dermatologist from Thailand. He graduated with an M.D. from Chiang Mai University and holds an American Board certification in Dermatology and Dermatopathology. He is the founder and former president of the Thai Society of Cosmetic Dermatology (Thai Cos Derm). Currently, Dr. Piamphongsant serves as a senior consultant and guest lecturer in the Department of Dermatology at Mae Fah Luang University (MFU), where he continues to contribute to the advancement of dermatological education and practice.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

EAN CHONG, MD, MSC

Dr. Ean Chong is a multilingual medical professional with a strong background in internal and emergency medicine, as well as expertise in anti-aging medicine. He earned his Bachelor of Medicine and Bachelor of Surgery (MBBS) from Zhejiang University in China and is currently pursuing a Master of Science in Anti-Aging Medicine at Mae Fah Luang University, Thailand. In addition to his medical practice, he has experience in pharmaceutical sales and clinic management, demonstrating his versatility and commitment to healthcare. Dr. Chong is also skilled in digital marketing and data analytics, further enhancing his ability to lead and innovate in the medical field.

ASSOC. PROF. ORIANNA TIO PARAHITA NAINGGOLAN, M.SN

Oriana Tio Parahita Nainggolan, M.Sn., is an Associate Professor in the Music Education Program at the Faculty of Performing Arts, Institut Seni Indonesia (ISI) Yogyakarta. She earned her Master of Arts in Music from ISI Yogyakarta. Her areas of expertise include music pedagogy and applied piano education. Beyond her academic role, she is the co-founder of Distinction Music School, a private institution committed to high-quality music education in Yogyakarta. Currently, she is pursuing a doctoral degree in Anti-Aging and Regenerative Science at Mae Fah Luang University, Thailand, as a recipient of the prestigious MFU 25th Anniversary 25 Ph.D. Scholarship for the 2024 academic year.

THI VAN ANH TRAN, MD

Tran Thi Van Anh is a dermatologist from Vietnam with a strong foundation in both medical dermatology and aesthetic medicine. She completed her Dermatology Residency and earned a Master's degree at Can Tho University of Medicine and Pharmacy, one of Vietnam's leading medical schools. Her expertise is complemented by certifications in plastic surgery and minimally invasive aesthetic procedures. She is currently pursuing a PhD in Dermatology at Mae Fah Luang University, Thailand, further advancing her academic and clinical contributions to the field.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

SARAWUTH SUWAN, MD.

Dr. Sarawuth Suwan is a prominent aesthetic physician and the owner of B.MEE Clinic since 2015. He serves on the subcommittee of the Thai Association of Cosmetic Surgery and Medicine (TACS) and participates in multiple mentorship and training programs, including AMI Mentorship Thailand and AMI Next Master Thailand. Dr. Suwan holds several advanced certifications and diplomas in aesthetic medicine, including from the American Board of Anti-Aging and Regenerative Medicine (ABAARM), the Thai Board of Preventive Medicine (Lifestyle Medicine), and TACS. His extensive training covers facial aesthetics, laser surgery, chelation therapy, and advanced procedures such as rhinoplasty, blepharoplasty, and thread lifting across various international institutions.

JARUPAT WATSIRITHUM, MD

Dr. Jarupat Watsirithum is an aesthetic doctor from Bangkok. He is the CEO of FaceForward Clinic and the owner of Mercy Aesthetic Training in Khon Kaen and Bangkok. He earned a Master of Medicine (MD) from Mahasarakham University (2013–2018) and completed multiple advanced aesthetic training courses from reputable institutions such as Wesure Cosmetic Center, Galderma, Merz Aesthetics, and others. He worked as an Aesthetic Doctor at Bujeong Clinic (2019–2021), later becoming Head of Injectors and Co-Trainer at Kloss Clinic (2021–2023), and also served as a KOL for Aestema during 2022–2023. Known for his strong communication, negotiation, and interpersonal skills, he thrives in fast-paced environments and has deep expertise in facial lifting, body contouring, and injectable techniques. He is also a co-trainer for the filler brand E.P.T.Q. and a speaker for aesthetic courses in Myanmar (Laser Care Clinic).

RUECHA RASSAMEECHOTE, MD.

Dr. Ruecha Rassameechote is a distinguished graduate of the Faculty of Medicine at Mahidol University. He currently serves as the Medical Director at Masterwork Clinic, a premier plastic surgery and aesthetic center in Bangkok. Dr. Ruecha brings a wealth of expertise to the field and has held the esteemed position of Senior Local Mentor Trainer for Galderma Thailand since 2018. An internationally renowned speaker and certified MINT thread trainer since 2020, Dr. Ruecha has shared his extensive knowledge and expertise at numerous conferences and workshops around the globe. His insightful presentations and hands-on training have captivated audiences and set new standards in the field of aesthetic medicine.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

ASSOC.PROF.DR.KAMPON SRIWATANAKUL M.D., PH.D.

Dr. Kampon Sriwatanakul, is an Alumni of the esteemed Mahidol University, Bangkok, and one of the most well known Medical Professionals from Thailand. He is an M.D. Medicine, PhD Pharmacology with over 45 years experience in the medical field and is currently serving as President of the National Charter of Health, Thailand. He is also the Director of International Anti-aging and Regenerative Medicine Organization (IARO). Being an Academician and researcher by heart, his interests lie in Anti-aging medicine, Integrative Cancer Treatments, Stem Cell Technology, Regenerative Medicine, Clinical Pharmacokinetics & Development of Herbal Drugs. His contributions to society have also been recognised globally as he is the 2024 nominee for the prestigious Gusi Peace Prize Award. Dr. Kampon commits his knowledge and experience to treating complex medical cases through Integrative Medicine and is on the board of many reputed Thai Hospitals, Clinics & Wellness Centers. He is committed to developing Thailand as a Global Leader for medical technology and innovation and enabling Modern Medical science to benefit all of Humanity.

ASST.PROF.ANON PAICHITROJJANA MD.

Dr. Anon Paichitrojjana graduated with a medical degree from Srinakharinwirot University and completed his dermatology training at Ramathibodi Hospital, Mahidol University. He also earned a fellowship in Dermatopathology from the Ackerman Academy of Dermatopathology in New York, USA. Dr. Anon has extensive experience as a dermatologist and lecturer, having worked at Ramathibodi Hospital, Mahidol University, the Institute of Dermatology, and the Skin Center of Srinakharinwirot University. Currently, he is a lecturer and researcher at the School of Anti-Aging and Regenerative Medicine at Mae Fah Luang University.

ASST. PROF. DR. SUMATE KUNCHING

Asst. Prof. Dr. Sumate Kunching is a dedicated academic professional at the School of Anti-Aging and Regenerative Medicine, Mae Fah Luang University. With a Ph.D. and a CSCS certification, he is well-versed in the fields of sports medicine and exercise science. Dr. Kunching holds a range of certifications, including from the American College of Sports Medicine (CPT), the American Council on Exercise (CPT), and the National Strength and Conditioning Association (CSCS). He is also certified by the National Academy of Sports Medicine (WLS), the National Bodybuilding Coaching Certificate Course (TBPA), and the International Society of Sports Nutrition (SNS), reflecting his broad expertise in sports and health sciences.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

DR. KOBKUL SUDSUANSRI, PH.D

Dr. Kobkul Sudsuansri, Ph.D., is a prominent academic and researcher with expertise in the fields of education and social sciences. She has a significant background in educational research, focusing on community-based learning and the development of educational strategies in Thailand. Dr. Sudsuansri has contributed to various academic publications and has been involved in numerous projects aimed at enhancing educational practices and policies. Her work emphasizes the integration of cultural and social contexts into educational development, particularly in rural and underserved communities.

ASSOC. PROF. PHAKKHARAWAT SITTIPRAPAPORN, PH.D.

Asst. Prof. Dr. Phakkarawat Sittiprapaporn is an academic specializing in neuroscience and cognitive science. He is known for his work in neuroeducation, brain training, and the application of neuroscience principles in educational settings. Dr. Sittiprapaporn has contributed significantly to research on brain function, learning processes, and how cognitive science can enhance educational outcomes. He is affiliated with several academic institutions and frequently participates in conferences, workshops, and seminars on topics related to brain science and education.

PROF. TAKAHIRO FUJIMOTOM, MD, PHD

Dr. Takahiro Fujimoto graduated with an M.D. from Shinshu National University in 1995. He earned a Ph.D. in Dermatology and Surgical Science from the University of Tokyo in 2004, an MBA from the University of Wales in the UK in 2006, a Ph.D. in Engineering from Tokai University in 2013, and a Ph.D. in Pharmaceutical Science from Keio University in 2018. He completed his internship at the Hospital of the University of Tokyo in 1997, served as Clinical Staff at Kanagawa Children's Medical Center in 1998, and was a Clinical Associate at the Institute of Medical Research of the University of Tokyo from 2004 to 2005. In 2018, he became a Visiting Professor at the Department of Medical Engineering, Tokyo City University. Dr. Fujimoto is a member of several medical associations both in Japan and internationally. He is also a speaker at many international conferences in the fields of dermatology and aesthetic dermatology.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

KWANRUDEE KAEWMUNGKUN M.D

Dr. Kwanrudee Kaewmungkun is the Laboratory Manager at the MEDEZE Group. Her expertise includes the isolation and cultivation of mesenchymal stem cells from umbilical cord tissue and adipose tissue. She has also developed techniques for culturing mesenchymal stem cells from amniotic fluid. Her latest research and development focus on the cultivation of hair follicle cells for hair banks.

DR. ATITA INWONG, M.D

Dr. Atita Inwong, M.D., is a medical doctor with expertise in ultrasound imaging in aesthetic medicine. She is involved in the field of aesthetic dermatology and is known for her work on advanced techniques in facial aesthetics, particularly in the application of ultrasound technology. Dr. Inwong is also a speaker at various international conferences, where she shares her knowledge on the role of ultrasound imaging in enhancing the precision and safety of aesthetic procedures.

HNIN LEH KHIN, MD, MSC

Dr. Hnin is a highly respected aesthetic physician and the co-founder of My Aura Aesthetic Clinic (established in 2017). With over a decade of dedicated practice in the field of aesthetics, she has become one of Myanmar's most recognized experts in facial rejuvenation and minimally invasive cosmetic procedures.

She is the first Key Opinion Leader (KOL) in Myanmar for the UltraV Korean Threadlift brand. Dr. Hnin holds a Master's Degree in Anti-Aging and Regenerative Medicine from Mae Fah Luang University, Thailand, and has obtained multiple advanced certifications in Botulinum Toxin, Dermal Fillers, Threadlifts, Biostimulators, and other cutting-edge aesthetic procedures, including accreditation from the American Academy of Aesthetic Medicine (AAAM).

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

ASSOC.PROF. NAWHATH THANWISSET THANVISITTHPON PHD.

Assoc. Prof. Nawhath Thanwiset Thanvisitthpon (born 4 January 1982) is a faculty member in the Faculty of Architecture at Rajamangala University of Technology Thanyaburi, Bangkok. He holds a Ph.D. in Climate Change and Sustainable Development from the Asian Institute of Technology (2020) and multiple Master's degrees, including in Anti-Aging & Regenerative Science (Mae Fah Luang University, 2021), Urban Environmental Management (AIT, 2011), and Advanced Architectural Design (Oxford Brookes University, UK, 2009), as well as a Bachelor of Architecture from Rajamangala University of Technology Thanyaburi (2004). He has held leadership and administrative roles including Academic Council Member (2022-2025), Assistant Dean of the Faculty of Architecture (since 2023), Vice-Chair of the Subcommittee on Energy, Environment & Circular Economy (since 2023), Research Commission on Natural Disaster and Public Disaster Prevention, and program responsibility for the Master of Architecture in Creative Innovation for Sustainability. He has completed advanced training in climate change adaptation tools, research ethics, and quality assurance in teaching, and has served as invited speaker, chair, and editorial board member for national and international academic events.

LALITA NORAPHETCH, PHD

Lalita Noraphetch, holds a Ph.D. in Public Administration, a Master of Science in Anti-Aging and Regenerative Science, and a Bachelor's degree in Oriental Medicine. She currently serves as Managing Director at Pretta (Thailand) Co., Ltd. (2015–present), with prior experience as a Training and Sales Consultant at Perfect Slim Co., Ltd. (2013–2016), and Managing Director at both Beauty Center & Anti-Aging Co., Ltd. (2011–2013) and Pornwimon Aesthetic Co., Ltd. She has extensive expertise in anti-aging, wellness, and business management in the health and beauty industry.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

PROFESSOR KANOKPAN WONGPRASERT PH.D. (THAILAND)

Professor Dr. Kanokpan Wongprasert is a professor of Anatomy in the Department of Anatomy at the Faculty of Science, Mahidol University. She imparts her expertise in Gross Anatomy, Structural and Developmental Anatomy, Histology, and Cellular and Tissue Function to students in both the Bachelor's Program in Medicine and Biomedicine and the Graduate Program in Anatomy and Structural Biology.

Dr. Wongprasert received her Ph.D. in Anatomy from the Faculty of Science, Mahidol University, in 2001. Her research interests are centered on utilizing natural products and phytochemical substances, with a particular focus on seaweed, in biomedical and aquaculture research. Her work explores various aspects including anti-aging, wound healing, skin barrier enhancement, collagen stimulation, cancer treatment and diagnosis, osteoarthritis treatment, immune modulation, and pathogen protection. Throughout her career, Dr. Wongprasert has led over 15 funded research projects and has significantly contributed to the field through her extensive publication record, including 55 international scientific papers. Her h-index is 21, reflecting the impact and reach of her research. In addition to her research and teaching responsibilities, Dr. Wongprasert is a member of the scientific committees for the Anatomy Association of Thailand (AAT) and The Microscopy Society of Thailand (MST) conferences. She is also an active reviewer for both national and international scientific journals.

ASSOC. PROF. DR. SOMLUK ASUVAPONGPATANA, PH.D. (THAILAND)

Associate Professor Dr. Somluk Asuvapongpatana earned her Ph.D. in Anatomy from Mahidol University, Thailand, and completed post-doctoral training in "Immunohistochemistry and Image Analysis" at the Academic Medical Center (AMC), University of Amsterdam, The Netherlands. She is currently an Associate Professor in the Department of Anatomy at the Faculty of Science, Mahidol University. Dr. Somluk teaches anatomy to a diverse range of students, including medical, paramedical, and graduate students in the Anatomy and Structural Biology programs. She is a member of The Electron Microscopy Society of Thailand and the Anatomy Association of Thailand. Her research interests span reproductive biology of aquatic animals, stimulation of bone formation by nacre, and the effects of herbal extracts in cancer therapy.

DISTINGUISHED PANEL OF CONFERENCE SPEAKERS

ASST. PROF. DR. MONSICHA SOMRIT, PH.D. (THAILAND)

Assistant Professor Dr. Monsicha Somrit earned her Ph.D. in Anatomy and Structural Biology from Mahidol University, Thailand. She completed her postdoctoral training in "Structural and Functional Glycobiology" at UGSF, University of Lille, France. She currently serves as an Assistant Professor in the Department of Anatomy, Faculty of Science at Mahidol University. Dr. Monsicha teaches anatomy to various student groups, including those in medical, paramedical, and graduate programs in Anatomy and Structural Biology. She is a member of the Anatomy Association of Thailand. Her research interests include genetic modification of virus-like particles, nanoparticle delivery, glycobiology, and the 3D generation of anatomical structures.

BORWORNTHep PHUCHONGCHAROEN, M.D

Borwornthep Phuchongcharoen, M.D., is a dedicated aesthetic physician with a strong specialization in filler injections for facial lifting and correction of the periorbital area. He earned his medical degree from Mahidol University in 2019 with a GPA of 3.24 and is currently advancing his expertise through a Master's degree in Aesthetic Medicine (2024–2025). Dr. Borwornthep began his medical career as an intern at Phaholpolpayuhasena Hospital before transitioning to aesthetic practice, where he now works at Gangnam Clinic. With a reputation for gentleness, precision, and an artistic approach, he combines medical knowledge with creativity to achieve natural and satisfying results for his patients. He is also active as a Key Opinion Leader (KOL) for Saypha Filler and shares his insights through his Facebook page, Wanna be Aesthetic doctor by คุณอุษณ. His core values—honesty, curiosity, and a deep passion for aesthetics—drive his mission to elevate industry standards and empower fellow physicians. Dr. Borwornthep is committed to ensuring that patient benefits always remain at the heart of aesthetic medicine.

ISAAH 2025

CONFERENCE

20 Sep 2025 16.00-18.00

ROOM B : Anti Aging and Regenerative
Medicine (Parichat Room)

Workshop on
"Extracellular Vesicles in Facial Aesthetics
and Reverse Aging"

Thailand Charter
of Health

TOPIC	Highlight / Sub-headline
Plant Exosomes: The Natural Frontier in Anti-Aging and Skin Regeneration	Harnessing plant vesicles and trace elements to boost skin vitality, collagen repair, and oxidative resilience.
Nebulized Exosomes: A Breakthrough in Lung Regeneration and COPD Treatment	From preclinical promise to first-in-class human trials — how MSC-derived exosomes could repair lungs, restore breathing, and fight chronic inflammation.
Biological Properties of Plant-Derived Nanovesicles: Focus on 100 Years Korean Ginseng and Centella Asiatica	Exploring how plant-based extracellular vesicles carry natural bioactive compounds that promote regeneration, regulate inflammation, and restore skin and organ vitality.
